PHYSIOPAK®

Exclusively endorsed by the Australian Physiotherapy Association (APA)

Representing over 12,000 physiotherapists around Australia, the APA works with governments and educational bodies to try to ensure quality physiotherapy services are available to all Australians. The APA also works to educate Australians on maintaining health and wellbeing and reducing the incidence of injury.

The APA endorses a number of carefully selected products. APA endorsement of any product or service only occurs after a set process involving rigorous scrutiny by relevant experts and detailed consideration of the following: The quality of the product, its utility, the best interests of physiotherapy patients and the general public, as well as the ethos of the company involved. As a result of this, you can be assured that APA endorsed products provide excellent quality, value and security.

That is why the APA is happy to recommend and endorse the Spartan Physiopak® for school-aged children to use as their main method of carrying items to and from school.

Yours sincerely,

Damian Mitsch
Acting CEO
Australian Physiotherapy Association.
